### Other Wells Fargo Benefits

You control your information - Be aware what you share

It could be something as innocent as your email address or where you bank or live. Be careful what you share and who you share it with.

Fraudsters can use your personal information to steal your identity. They'll get into your accounts or even open new accounts in your name. This costs you money, time to close unauthorized accounts and an emotional toll as you try to repair your good name.

Scammers use all kinds of ways to get you to give up your information:

- Scammers can pose as your bank claiming there is a "problem" with your account.
- Tech imposters will convince you there is "an issue" with your device and get you to give them access to it.
- They'll have you scan QR codes or get you to fill in personal information on fake websites or online surveys.

Don't give them that chance. Protect your information on- and offline!

What to do:

- Use strong, complex passwords on all your accounts. Use two-factor authentication whenever it's available.
- Avoid clicking links in emails or texts. Instead, go directly to the official website or app.
- Be mindful of what you share on social media and who with.
- Use secure Wi-Fi. Avoid public Wi-Fi if possible.
- Install and maintain antivirus and antimalware software on your devices.
- Don't share personal information unless you initiated the contact. Slow down and always verify who you're giving the information to and why to ensure it makes sense.

Remember, it's your information. Share it wisely.
